

Swimwear that Enhances Your Bust

Last Updated Thursday, 19 June 2008

Worried about summer approaching? Feeling unconfident about the top of your body? There is no need to. Just follow simple rules to choose a swimsuit that will enhance your bust and make it look bigger. Read more...

Days are getting warmer and the summer holiday time is approaching, which means that it is time to start looking for a new swimsuit that will make you the Queen of the Beach. And no need to get upset if you have small breasts, because by choosing a right swimsuit top you can make them visually bigger. Here is how. 1. Your best bet is triangle-shaped cups and bras that tie on your neck. 2. Look for bright colours, ruffles, thin stripes, flashy prints and glitter. The lighter and brighter your top is – the bigger your breasts appear. To enhance your breast shape and create a cleavage choose a bra that ties in front. It will help you to uplift your breasts and bring them closer together, making a sexy bust line. 3. Those tiny Brazilian swimsuits are made specially for you. In contrast to those little pieces of fabric your breasts will look bigger. Not to mention that this bra style is very sexy and will surely get you some attention on the beach. 4. Padded bra is always a great option to visually enlarge your breasts. However, do not make a common mistake of choosing a bra that is too big, thinking it will make you look curvy. On the opposite, it will hide your breasts making them appear even smaller in comparison to that big bra. 5. Women with A and B cup sizes have an advantage of firmer breasts. Therefore, you do not need a supporting bra and you can pick strapless or string bikini. But to enhance your shape and size try picking an under-wired bra.
