

Breast Success Review

Last Updated Wednesday, 05 May 2010

Breast Success is widely known and has been on the market for a long time. But is it worth your attention and money? Read our review before you decide to buy this breast enlargement supplement. Read more...

Breast Success is one of the best known breast enlargement pills on the market today. Its natural ingredients and effective formula won many women's trust. Breast Success is made of safe and carefully-chosen 13 herbs that were always known to have a good impact on breast health and shape. For those of you who worry about potential dangers of soy extracts, Breast Success contains no soy. All of the natural ingredients in these breast enlarging pills are listed on the Food and Drug Administration's GRAS list of safe foods and the manufacturers make quality of the product their priority. These pills have no additives, lubricants or fillers and therefore no side-effects, when taken according to the instruction.

Formula Each Breast Success capsule contains: Fenugreek Seed Extract, Saw Palmetto Berry, Fennel Seed, L-Tyrosine, Mexican Wild Yam Root, Pacific Kelp, Damiana Leaf, Dong Quai Root, Mother Wort Herb, Black Cohosh Root Extract, Oat Grass, Blessed Thistle Herb, Hops Flower.

Results Breast Success does not give any false promises, by saying that it can make your breasts grow from AA cup-size to D. However, it can enlarge your breasts by ½ - 2 cups. The first results are usually noticed between 5th and 8th week of taking 3 pills a day. After achieving the size that you want, there is no need to continue taking the Breast Success pills. But it is recommended to repeat the course for 1 to 2 weeks interval every 6 months to maintain the results.

Testimonials: Does Breast Success really work? Its official website is full of written and audio recorded testimonials from happy customers, who are sharing their before and after Breast Success stories. Here are a few of them.

"I bought 5 bottles of Breast Success in August 2005 and I must admit I was pretty cynical when I did this. I've been fairly flat chested all my life and it's been quite frustrating and it made me feel less than confident. With these 5 bottles I definitely went up to a 34B and I know that because my bras got tighter and tighter and then I had to buy some new ones. I look better in a bikini and my side profile is better. Even when I lose weight, that was one of my frustrations, I would lose weight from around my waist but most of it would come from my breasts. That was pretty frustrating. Now I find that I can lose weight around my waist and my backside but my breasts still stay full. I definitely recommend it."

"Hi it's Amanda here, I'm from Brisbane in Australia. I've tried Breast Success and I think it is absolutely fantastic. I went from size 10A to size 12B and it's just absolutely great. Unbelievable results. I would recommend it to absolutely anyone and I've already told many of my friends about it. Thank you so much!"

"I called to say that I am very thrilled with my breast growth. I used to be a 34A but after using Breast Success pills my breasts are now a 32B. I'm so pleased with the results. My friends were so amazed with the change that 2 of them are ordering a 6 month supply. Thanks for having Breast Success, I thought I was going to live with small breasts for the rest of my life. Ladies don't be scared and give it a shot, it really works!"

Adverse Effects With highly-effective and carefully researched botanicals contained in each pill, there is no risk of unwanted weight-gain, unlike with many other breast enlargement pills. Breast Success has also shown no interference with birth-control pills and has worked great for women who already have breast-implants. However, the manufacturer clearly warns that the product is not for pregnant, breast-feeding or younger than 18 years old women. Women on special medication are also advised to consult with their doctor prior to using the product.

Customer Service Regarding customer service, everything is done for client's convenience. The product is shipped in a discreet package and can be delivered internationally. There are many ways in which you can pay – from credit card and check by mail, to PayPal. If you have any questions that are not already answered on their website, you can use live help to contact customer care representatives, who will assist you.

Price and Delivery The price of the product is not the highest on the market, with 1 month supply package of Breast Success costing only \$50. With bigger orders, you can always enjoy discounts and sometimes free shipping. Plus, there is a 100-day money back guarantee, making it safe for you to try it and see how it works for you without risking anything.

Breast Success offers a great alternative to breast enlarging surgery and can be recommended as a safe and trusted method of natural breast enlargement.
